

# Putting Texts in Conversation with One Another

Your Name:

Your Author's Name:

Your Author's Position:

Discuss your position with the three other authors (for example, if your author is Zhuo, you will need to find a Stafford, Wilson, and Boyd to meet with). During your conversation with each, determine your relationship with one another. Do your position's claims extend, complicate, qualify, challenge, or illustrate the other author's claims?

Author 1's Name:
